# DEB LEVINE

## MEDIUM & INTUITIVE

Deb Levine is a Medium and Intuitive...she hears from dead folks. She can also hear what your soul is whispering. Sounds weird and woo woo? Not at all! Deb highlights as a Penn State alum with a degree in Advertising; a fitness enthusiast; a trained baker and mom of two, who just happens to have these "gifts" that have been with her since childhood.

Considered a "sensitive" child by family and friends, Deb was 13 when she realized she could "connect" with people no longer living in their physical bodies. She also had the uncanny ability to "know things" about people that she couldn't explain?

Deb's world began to unfold after a mid-life ADHD diagnosis forced her to take that uncomfortable journey inward. With the help of a great therapist, self-development work with tutors of Mediumship, and the practice of meditation, she reconnected with her mediumistic and intuitive abilities and finally began to understand the wisdom it carried.

Deb realized that she could use these innate gifts that she'd once considered "creepy" to assist others on their journey back home to themselves, to discover the power of their very own Soul Wisdom!.

During a 45-minute Soul Wisdom session, Deb masterfully guides her clients on a gentle "soul excavation" which may include both mediumship and intuitive aspects. Deb intends to empower her clients to live life to its fullest expression.
